Nivea sent me the following contacts at the Santiago tribunal:

Their e-mails:

Sebastian Valdes: svaldes@tribunambiental.cl

Jose Ignacio Vasquez: jivasquez@tribunambiental.cl

Nadtya Y. Hong, Esq.

Office of International and Tribal Affairs

Latin America and Caribbean Team

Chile-Peru-Colombia

Ph: 202-564-1391

Thank you Davis, I'll mark it for my successor who gets here July 27th and suggest she consider attending the event. It would be good for her to meet you if she hasn't already. Her name is Emily Ruppel. RuppelEA@state.gov

I also really appreciate the contacts. I see Cristian Perez doesn't work at the SMA anymore and he was my former go-to.

-Andrew

Subject: RE: Contacts at SMA

The Superintendent is Cristian Franz, franz.cristian@sma.gob.cl (I think) but I would start by reaching out to his Chief of Staff, David Silva, david.silva@sma.gob.cl. David and Cristian both speak excellent English, if that helps.

I really haven't had official contacts with other agencies, but Nadtya should have some connections.

I'm copying Nivea Berrios at EPA's Environmental Appeals Board who should have good contacts with the Environmental Tribunal.

On another note, we are planning a pair of workshops on sampling and forensic evidence with SMA the week of August 10; a 2 day version of the regional workshop we did last year. SMA has offered to invite other countries in the network, and we have a little funding left for travelers from Peru and Colombia. We'll do one workshop in Antofagasta and one in Valdivia. You should be seeing our clearance cables in the next week or two. I'll be traveling with Jairo Castillo from our lab in Athens, GA.

Subject: Contacts at SMA

Hello Davis, Nadtya,

I'm working on setting up meetings for Kate Weber's (OES/EQT) upcoming late-July visit to Santiago.

I was hoping to have her meet with your contacts at the SMA who you have worked on the regional enforcement network with, could you tell me who those contacts are, and provide their email addresses? I'm afraid to say I haven't kept up with the folk at the SMA in a while and could use your help identifying the right people. I'll be setting meetings up with the Ministry of Environment, CONAF, Ministry of Mining, and others, but let me know if there any other specific meetings you would recommend I schedule. Do you have any work with the Servicio de Evaluación Ambiental?

Thanks,

Andrew Chapman
